

## **Virginia Mason Medical Center Presentation Questions**

1. Could an adaptation of TPS be successful in the Italian health care system?
2. Are there any incentives to implement TPS in the Italian healthcare system? If so, what are they?
3. What are the major barriers to implementation? Could these be overcome? If so, how?
4. What would be needed to successfully implement TPS in Italy? What would the role of clinical leaders in doing so?
